

Sector flavour: Not-for-profit / NGO

Drop-in replacements for the sector-neutral master. Everything else in the template stays the same.

"The people we serve"

→ **our beneficiaries, donors, and community**

Leadership body

→ **the Board / Trustees**

Why this policy exists (reference draft)

We exist for our mission and the people it serves — not for the tools we use. AI can extend our limited resources: drafting funding reports, summarising research, handling admin. But we hold sensitive information about vulnerable people and the trust of our donors, and we are accountable to our board and our funders for how we steward both. This policy sets out how we use AI faithfully to our mission.

Extra conviction framing

Add to conviction 2 (People before efficiency): *We are stewards of limited resources and of the trust placed in us. Efficiency that costs us that trust is not a saving.*

Red-list examples (What we do not do / Privacy)

Beneficiary case data, client/service-user records, safeguarding information, donor records and giving history, staff HR files — anything shared in confidence.

Charity note

✅ **Include:** *As a registered charity / not-for-profit, a reduced rate applies to any facilitated custom policy work — ask about the charity rate.*

Suggested leader roles for adoption block

Chief Executive / Director · Board Chair
